ABOUT ART & CREATIVITY FOR HEALING:

OUR MISSION

We give pain a voice and meaning by providing therapeutic art workshops to support emotional healing for children, families, individuals, and military personnel using our unique Art4Healing® method. These workshops and community programs offer expression, encouragement, clarity, and insight, and are held at our facility in Laguna Hills, California, and on-site at hospitals, treatment centers, schools, military facilities, shelters, and other non-profit centers.

A CREATIVE PROCESS THAT FACILITATES HEALING

Art & Creativity for Healing facilitates the creative process while encouraging emotional healing—and these two paths often intersect when words are not adequate, and pain is too deep.

The mix of artistic development and expression coupled with a creative healing model allow participants to learn a new way of communicating through color that encourages emotional breakthroughs and further enhances the therapy process. Unlike other art programs that employ a loose format of free expression, the Art4Healing® curriculum contains strictly guided exercises, conducted by trained and certified facilitators, and is designed to elicit emotional responses.

A HISTORY OF TRANSFORMATION

Since our inception in 2000, Art & Creativity for Healing, Inc., a 501(c)(3) nonprofit corporation, has directly fostered transformational change for over 75,000 children, women, and families who have found our creative intervention a valuable tool to address the often unbearable pain in their lives.

With more than 35 non-profit program partners in Orange, San Diego and Los Angeles counties, we have created an effective methodology for reaching people in pain. Thanks to the support of foundations, corporate and private donors, we are able to provide programs and services for approximately 4,000 Southern California residents each year. We serve all individuals regardless of race, creed, sex, age, or emotional stability.
